WORK EXPERIENCE

Digital Coordinator
Voks - Planter Med Omtanke

06/2022 - 08/2022

At Voks, I was key in elevating our online presence (SoMe) and user experience on the homepage.

Achievements/Tasks

- Analyzing user behavior and implementing design changes to increase engagement and conversions.
- Optimizing the website's load time and responsiveness, ensuring seamless browsing across various devices and platforms.

EDUCATION

Fullstack Developer
Epicode (former Striveschool)

Courses

- During my time at Epicode, I learned the core principles of web development, including building mobile-friendly applications using Bootstrap and cutting-edge CSS techniques. I also gained in-depth knowledge of JavaScript, allowing me to create dynamic applications connected to APIs and other web services.
- I sharpened my expertise in both frontend and backend technologies, empowering me to create highly scalable and robust applications. This comprehensive learning experience equipped me with the know-how to transform ideas into reality, ensuring the delivery of top-notch, professional-quality products.

Bachelor of Information Technology and Business Economy
Københavns Erhvervsakademi

08/2016 - 04/2023   *Copenhagen*

Courses

- Proficient in software construction and systems development through hands-on projects
- Experience aligning IT and business objectives for effective cross-functional collaboration
- Solid foundation in micro/macro-economics and business strategy for IT context
- Developed strong presentation and communication skills for diverse teams and stakeholders

SKILLS

Javascript · React · HTML · CSS · Bootstrap · Redux · Agile · Github · API · MongoDB · PostgreSQL · Node.js · Scrum · Communication · Critical thinking · Learning
